Jim McClellan introduces Rusty Kennedy of The Orange County Human Relations Commission who discusses Hate Crimes. The Commission was created to eliminate prejudice and tolerance in discrimination in Orange County. A Hate Crime is an incident motivated all, or in part, by one's race, ethnicity, sex, sexual orientation or religion, resulting in verbal threats, visual graffiti, beatings, and sometimes shootings, causing serious injuries. The answer is to educate people in inner-ethnic relations.							
EDUCATION/SCHOOLS	<u>A CALL TO ACTION #105</u>	27:45	21:00	N	PA/O	1-01-92 1-05-92	8:30P 12:30P
Jay Sekulow presented his guests, Ty Bragg, Correspondent, Roy Hollis and Kirk Parkratz from Youth America and Bill Haynes and Joel Thornton of C.A.S.E. The complex problems of today's high school student was discussed as well as the problem with the educational system. A history of the decline of the quality of today's education was presented and the panelists suggested ways in which the high school student could form clubs for prayer and Bible reading with emphasis on

	Pat Robinson interviewed Dr. William J. Bennett via uplink. Dr. Bennett was Secretary of education and America's first Drug Czar. Dr. Bennett states the Education Association is the most powerful lobby in Congress and it wants to control education. Pat brings up how they actually have books that teach teachers how to counteract the desires of parents. Bennett states in a lot of Union Literature, the parents is considered and treated as the enemy and adds that most teachers don't feel this way, but the Union does. Dr. Bennett states we must keep hammering at the Union.

	Dr. Cherry and wife, Linda, talks about clipping out articles from medical journals about protection from disease. They relate to scriptures about proper foods to eat which includes seeds, fruits, chicken, grains and cereals. Dr. Cherry read a medical article on multiple sclerosis, which states the disease can be slowed down by sticking to a low saturated fat diet. 95% of those who stuck by the diet survived with only minor disabilities for 30 years. In contrast, 80% of the patients on a high fat diet died of the disease. Dr. Cherry stressed that we need to get back to the basics.

	Dr. Cherry and Linda discussed the benefits of preventative medicine. Dr. Cherry said by adding psyllium to the diet you can reduce the risk of heart disease by 17 to 61%. Fiber One cereal helps to prevent colon cancer and Oat Bran helps to drop cholesterol. The proper oils to use are Olive, Corn and Canola as they are low in saturated fats. Another good way to get natural oils into the diet is to eat almonds and walnuts. The proper intake of calcium in the diet was also discussed as the proper intake of calcium prevents the risk of colon cancer and osteoporosis and reduces blood pressure.					2-12-92	12:00P
	<u>CALLING DR. WHITAKER #491</u>	27:45	21:00	N	PA/O	2-12-92	2:00A
	Dr. Whitaker and Dr. Ed Beckham discuss stress. How we think and how we look at things is very important when it comes to stress. If we constantly dwell on the negative it creates stress. We have choices to make to push ahead to greater growth or we can take a negative approach. We must not base our self-worth on what we accomplish and we must change the way we think.					2-18-92	11:30A

	Dr. Whitaker talks about the mind and says the mind has the power to make us sick if we dwell on certain things. Also discussed today is the blood. The body is made up of a hundred trillion cells. Each cell has to be bathed in blood which carries nutrients. Preventative medicine has been around for 4,000 years and 90% of the diseases in America today are preventable, along with about 75% of all cancers.

	Dr. Cherry and Linda discuss the benefits of a good diet and how by eating carefully, a lot of problems would be solved. Dr. Cherry spent most of the program instructing the elderly on their health practices. He disproved theory that we are supposed to only live 70 years, when the actual life span, according to Genesis 6:3, is 120 years. He also states Alzheimer's disease can be prevented by studying, which keeps the mind alert.						3-04-92 12:00P

	Dr. Whitaker reads an article written in 1983 that stated "The evidence is becoming increasingly impressive that the cancer of most major common sights are influenced by dietary patterns." The body is made of 100 trillion cells which are connected to each other by blood, which result in (1) energy, (2) heat, (3) water and (4) waste. Every cell is in control of each other, and can be closed by diets high in fat. There are 3 types of cells: normal, pre-cancerous and cancerous. We need to be very careful and watch what we eat.						2-26-92 2:00A

	Dr Whitaker welcomes guest, Dr Mayo Gilson, who stated that 5 years ago breast cancer cases were 1 in 11 and today they are 1 in 9, due to diagnostic capabilities. Many women fear a mammogram in case there might be something found, but the earlier the diagnosis and the smaller the lesion, the better prognosis. Dr Whitaker mentions that upon research it was found more women died of osteoporosis complications than women diagnosed with carcinoma. He also states that heart disease is still the number one cause of death among American females over age 55. Dr Whitaker tells audience the way to prevent osteoporosis is to eat right, take supplements, exercise and quit smoking.

	Craig Smith related how he was climbing the ladder to success, with a well kept secret. From the age of 13 to 26 not a day went by without him smoking a joint and doing drugs. He felt his clean-cut image and white collar class kept him from being classed as a drug addict; after all, a drug addict was someone laying in a gutter with needles in their arms. His lifestyle was quickly ruining his marriage but one Mother's Day his wife asked him to attend church with her. While sitting there thinking about getting a buzz on, the pastor gave an altar call and he felt his hand go up and he went forward to accept Christ. After about a year he was totally off drugs, had a purpose in life and was still a successful businessman.

	Dino Voltino had been a weekend alcoholic looking for acceptance, but when his parents divorced, the house went up for sale and his brothers moved out, he began using drugs and women, too. He had a euphoric feeling when on drugs but still felt empty and unaccepted. He married and had a baby which just added to his already inadequate feeling. He started watching The 700 Club, which gave him hope. One day he prayed with Pat and after giving his life to the Lord he finally had the acceptance and security he had been lacking.

<p>Dr Cherry did an overview of things discussed over the past year about our immune system. He states in our time what is killing people is the immune system, which can be related to Aids, Cancer, Lupis, Rhumatism, and Arthritis. There are five basic steps you can do to help promote a healthy immune system. (1) Use of vitamins and minerals, (2) low fat, high carbohydrate diet, (3) decrease of chemicals, caffeine, tobacco, alcohol, etc, (4) stress weakens the immune system and (5) make exercise a daily routine. Dr Cherry ends with stressing the use of vitamins to set the stage for our healing and to line up with the word of God.</p>

<p>Dr Whitaker and his guest, Dr David Simpson, discuss being overweight, reasons for it, results from it and treatment for it. The American Heart Association says that the average American eats 45-55% fat, but recommends they stay under 30%, compared to 25% recommended by the American Diabetic Association. In order to stay under 30% a product has to say on the label "95% fat-free". Take the fat grams, times 9 and divide it by the total calories in that portion size to get your fat percent. Breast cancer falls dramatically when the female patient gets her diet down to 20-25% fat. Dr Whitaker encourages his patients to read labels. The benefits are lifestyles and eating habits you feel good about.</p>

<p>John and Ruthanne Jacobs introduced Larry Pereiro, who talked about when he was a narcotics officer. Pereiro states we are not winning the drug war because we don't really want to. He tells about almost shooting a 15 year-old who had a plastic gun; a 13 and 14 year old with marijuana sticks on them; picking up a guy who had enough drugs on him to convict him for 120 years, but only got 18 months; and the reasons for kids getting involved in drugs and gangs. Pereiro states the importance of communication between parents and kids and to remind parents not to say cruel things to their kids.</p>

<p>Steve and Pat Brock, hosts, welcome guest, Dion DiMucci, a former rock star. DiMucci said that he never did have it together. Neither of his parents drank or smoked, but they did argue a lot. DiMucci thought if he had three areas in his life together he'd have it made. (Security, position & relationship with the right girl.) He got the security (2 million dollars), the position and the girl - still it wasn't enough. He got into drugs and after his father-in-law witnessed to him about God, he was treated for drug addiction. He now travels, singing and giving his Christian testimony.</p>

<p>Sonny Arguinizoni introduces guests Daniel and Danny Sanchez, father and son. Daniel Sr. grew up in a dysfunctional family and was influenced by his friends in elementary school to use and deal marijuana. By the time he was 13 he was drinking and involved in gang violence. He was married at age 17, held a steady job during the day and resorted to robberies at night to support his drug habit, eventually leading to selling his home. Danny Jr was influenced by his father's lifestyle and ended up using marijuana, alcohol, drugs and was married at age 18. God reached out and touched their lives and they are now serving the Lord as Pastor and Co-Pastor of Frontline church in Albuquerque, NM.</p>

	Pat Robertson, host, introduced guest, Debbie Eyerman, a product of an alcoholic home, where she was told she would never amount to much. A friend encouraged her to sell Mary Kay Cosmetics and her natural sales ability took her straight to the top where she was named Top Sales Director of the Year. In spite of all this, plus furs, diamonds, cars, etc., Debbie still felt empty and turned to drugs and alcohol, which eventually resulted in her being fired from Mary Kay. While recovering from an attempted suicide, Debbie started reading the Bible and eventually accepted the Lord. Now she works with her husband, is still tops in her job and the emptiness in her life has been filled.

	Ron and Mattie McLeon were having trouble with their marriage because of Ron's drinking problem. He started drinking while in the military and would stop on the way home every night to have a drink. Mattie had got fed up with this routine and prayed and asked God to "kill her husband". One night they were watching The 700 Club and Ron said he was going downstairs to drink his beer; he ended up pouring it out. They were both saved and now are sharing their testimony to help others with the same problem.

<p>Pat Robertson and Sheila Walsh welcomes guest, Ronal "Rusty" Woomer. In 1979, Rusty, along with an accomplice, robbed, raped and murdered 4 people in a drug induced craze. His accomplice committed suicide and Rusty was tried and convicted and sentenced to death in the electric chair. In 1986, Rusty was visited by Bob McAllister, a volunteer for Prison Fellowship, received Christ and his life was changed. A brother of one of the victims wrote to Rusty and told him he forgave him for what he did. During the final week of 1990, the plea to overturn the death verdict was denied and Rusty will go to the electric chair.</p>

<p>A segment on The 700 Club featured Tom Jones, who had been an alcoholic since the age of 16. Alcoholism consumed his life and he would make up stories about how much money he had, where he had been and never told his wife, Elvina, the truth. Oftentimes Tom would wake up in his car, now knowing where he was or how he got there. Tom had a family member who drank himself to death and this started praying on his mind, knowing he was headed in the same direction. One morning at 4:30 a.m. he turned on the TV, after asking God for help, and heard Ben Kinchlow giving a word of knowledge for "Tom". He has given his heart to the Lord and he and Elvina now run a Day Care Center together.</p>

<p>Craig Smith related how he was climbing the ladder to success, with a well kept secret. From the age of 13 to 26 not a day went by without him smoking a joint and doing drugs. He felt his clean-cut image and white collar class kept him from being classed as a drug addict; after all, a drug addict was someone laying in a gutter with needles in their arms. His lifestyle was</p>
